

Strengthening Engagement through Ethics Review Course

For HIV Prevention Trials

Visit engage.avac.org to take the course now!

This course provides skills for facilitating Stakeholder Engagement in clinical trials through the ethics review process. *Earn a certificate upon completion!*

Six self-paced, interactive modules, 30 minutes each

- 1** The complexities in clinical trials of HIV prevention; using Stakeholder Engagement as a tool to navigate complexities
- 2** The ethical rationale for Stakeholder Engagement
- 3** Current ethics guidance (e.g. CIOMS 2016) on the role of RECs in reviewing Stakeholder Engagement
- 4** Three broad features of engaged trials
- 5** Three broad practices of engaged trials
- 6** Application to fictional scenarios. Interaction with an actual protocol of an HIV prevention trial

A free online course for:

Research Ethics Committee members

Researchers

Others interested in stakeholder engagement

This course was developed by HIV/AIDS Vaccines Ethics Group at the University of KwaZulu-Natal, and AVAC, with input from expert advisors. Layout was designed by SweetRush. This work was supported by the Coalition to Accelerate and Support Prevention Research (CASPR), (AID-OAA-A-16-00031), made possible by the generous support of the American people through the US President's Emergency Plan for AIDS Relief (PEPFAR) and the US Agency for International Development (USAID). The contents do not necessarily reflect the views of PEPFAR, USAID or the United States Government.
