

Thirteenth Meeting of the H3Africa Consortium

7th April - 12th April 2019

The Laico Tunis, Tunisia

Call for Exhibition and Sponsorship

Invitation

Dear Sponsor, Exhibitor, Industrial Partner

The [Thirteenth Meeting of the H3Africa Consortium](#) will be held April 7th- 12th, 2019, in the capital of Tunisia, the meeting will take place at the Laico Tunis.

The goal of the H3Africa initiative is to facilitate a contemporary research approach to the study of the genomic and environmental determinants of common diseases in Africa, with the purpose of improving the health of African populations. A total of forty-three grants have been awarded at various Institutions across Africa forming the core of the Consortium. These include a pan-African bioinformatics network, biorepositories for sample storage, and research projects applying genomics methods to study communicable and non-communicable diseases and/or exploring the ethical legal and social implications of genomics research on the African continent.

We do realize that many industry partners already engage our member scientists and we would like to further this engagement by inviting industry partners to showcase their services and products at our meeting in Tunis in an effort to solidify networks and find workable solutions to achieve our goals in a mutually beneficial manner.

Conference Venue and Contact Information

We can offer industry partners the opportunity to exhibit by providing a table and two chairs at the venue. You will also have sufficient space for two posters. You will have the opportunity to engage the Consortium Members during tea and lunch, arrange ad hoc meetings with interested parties. Please note that working group sessions are closed or by invitation only, other side meetings may also be by invitation only. Please see the meeting overview.
