

Feedback of Individual Findings in Genomic Research in Africa: Exploring Ethical Obligations and Implications

25 - 26 Feb 2021

14h00 – 17h00 Central African Time (GMT+2)

Join us online to explore salient African values and their implications for the return of individual genetic research results in African genomic research, as well as the implications of returning results to individuals and communities.

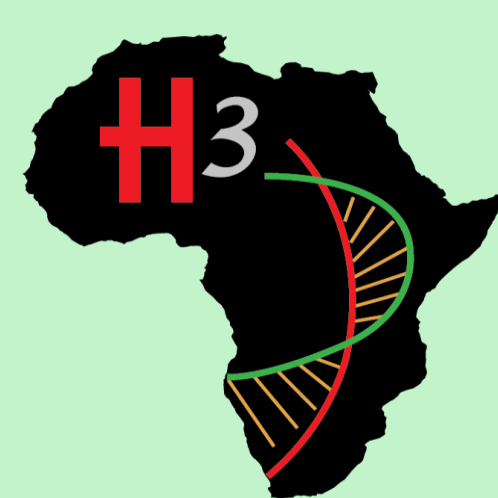

THEMES: Solidarity, Reciprocity, Communalism, Social Justice, Stigma and Empowerment

If you have been involved in feedback of genetic results or are thinking about this question in the African context and would like to present your work, kindly submit an **abstract** (max 300 words). Deadline for abstract submission is **15 January 2021**.

For abstract submission and/or registration please use this link:
